

Engineers without

borders - CET Student Chapter

Bhubaneswar

(Involving engineers for the betterment of the society)

EWB-CETB is a student chapter of the international organization Engineers without Borders (EWB).

Mission:

We seek to promote collaboration so that collectively we can achieve more than the sum of our parts and offer sustainable solutions in the areas of Water, Sanitation, Energy, Health & Education to improve the quality of life for common people.

Vision:

Every Engineering student has the opportunity to achieve his/her fullest potential, undertake real-life sustainable social projects and participate in and contribute to all aspects of life.

Goals:

All projects and work of the EWB-CET Student Chapter must reflect the need and principle of protection of the planet's ecosystems, locally and globally.

We encourage innovation to meet challenges

We foster an environment of collaborations

To encourage members in the development of individual projects that contribute to the improvement of society.

To create more interest in and understanding of technical projects (Artificial intelligence, web and app development, robotics, software and hardware skills, etc.)

Events and Competition organized:

- Plantation program on world environment day.
- Brush hour (To promote the solution to various social issues during Covid)
- Idea-e-Thon (Ideation to solve various social issues)
- Technical sessions for slum students near Nakagate.
- Poster design(An online competition held on the occasion of Energy conservation week)

Daily activity:

EWB-CETB is determined to educate kids who can't afford quality education. In 2020 a digital classroom near Nakagate has been built by our club which was funded by EWB-India. Regularly student members of our club go there and educate them.
